

INFORMATION ABOUT INSPECTION OF YOUR RESIDENCE

Energiretur AB has been commissioned by the property owner to carry out a statutory inspection of the ventilation system in your residence, what is called a mandatory ventilation inspection (Obligatorisk Ventilationskontroll, or OVK)

To do this correctly, we need to visit your residence to carry out the inspection and make the required measurements. We estimate the work in your residence will take about 5 minutes.

Inspection date (1): **See the information sheet**
Period: **During the above period**

In some cases, only spot checks need to be done. This might mean that we do not need to visit your residence to carry out the assignment. If you still want us to visit you and check the ventilation in your residence, please notify us by calling me or sending an e-mail or text message to the telephone number or e-mail address below before the specified inspection date.

If you are home during the inspection period and do not want to be disturbed, please indicate this with a note on the door stating an appropriate time for the inspection during the inspection period (see above) . If you have pets, please indicate this with a note on your door or contact me at the phone number or e-mail address below.

If you have provided a consent form but are not home at the time of inspection, we will enter with the master key obtained from the property owner. In that case we will leave a message that we have visited the flat so that you aware of this and can be confident who we are and our work.

IF YOU HAVE NOT PROVIDED A CONSENT FORM (according to previous mailing), WE WILL NOT VISIT YOUR RESIDENCE AND THIS NOTICE MAY BE DISREGARDED.

If you have any questions about this, please do not hesitate to call me at the telephone number or e-mail address indicated on the information sheet.
